COMMERCIAL INTELLIGENCE

THURSDAY EVENING, SEPTEMBER 15.

THE easier tendency in the London money market is confirmed by a decline of ⅛ per cent. in the rate of discount on 3 months' bills, the open market quotation being now 3⅜ and on 4 months' sight 3⅝ per cent. Consols, too, are ⅛ higher at 99½, whilst French Rentes and Enfaced Rupee Paper are unchanged. The 3½ per cent. Indian Sterling Loan, however, is quoted ¼ lower at 101. Why, it seems difficult to say, and we are inclined to think there must be an error in the quotation.

Reuter's prices for metals show no change. The Coffee market is reported firm, with an improvement of 1s. per quarter in Mid. Plantation Ceylon. Cocoa-nut Oil is unaltered; and in Seeds and Wheat the only movement reported is a partial advance of 3d. per quarter in Calcutta Rapeseed.

PIECE-GOODS in Manchester continue quiet, and the Liverpool Cotton market also comes quiet for Americans, with a decline of ⅛d. per lb., both on the spot and to arrive. Surats, however, are steady at previous prices. The drop in American almost looks as if the movement on the part of the spinners is taking effect; but it must be remembered that the real "squeeze" of the "corner" will only be fully felt in the last few days of the month. Outside holders of tenderable Cotton may feel inclined to accept a reduced profit on their stocks in the interval; but we are still of opinion that the real operators have a good chance of carrying out their programme. In New York yesterday ready Mid. Uplands were again ¼ lower. The receipts at the U. S. ports to date are as follow:—

	1881.	1880.	1879
Wednesday's Receipts	13,000	13,000	13,000
Five days' do.	62,000	48,000	48,000
Total since 1st Sept	150,000	130,000	91,000

At the weekly biddings for Council drafts in London yesterday the Government minimum was affixed at 1s. 7 13-16d., and the whole amount was allotted, having, in fact, been applied for four times over. Bar Silver has advanced to 51¼d. per oz., and shipments are advised of £30,000 for Bombay and £10,000 for Calcutta, in addition to £30,000 in Gold for this port.

EXCHANGE.—The rate at which Council drafts went induced a somewhat easier feeling to begin with this morning, but no actual reduction in rates ensued, save that private paper has been saleable at the bottom quotation of yesterday. At the same time the banks have been to the full as willing sellers as previously, and we hear of demand having been done up to February at 1s. 7 ⅛d., the ready rate of the day. We quote at the close:—

Bank Bills on demand	.. 1s. 7⅞d.	per rupee.
Do. telegraphic	.. 1s. 7 27-32.	"
Do. 3 months' sight	.. 1s. 8 1-32d.	"
Credits, 3 " "	.. 1s. 8 5-32	"
Documents, 3 " "	.. 1s. 8 3-16d.	"
Francs 3 " "	..2 13½	"

On Calcutta we still quote demand at 1-16 per cent. premium, 60 days' sight at ⅜ per cent. discount.

GOVERNMENT PAPER has steadied up during the day, the settlement so far having gone off very fairly. Fours have recovered to Rs. 100 9-16, Fours-and-a-half to Rs. 109½ to ⅝.

SHARES have undergone a reaction again to-day, and in a number of instances are quoted lower, Banks are unchanged. In Land Companies Colabas are quoted Rs. 15, Port Cannings Rs. 7½ lower. Spinning and Weaving Mill shares are dull, and in some cases Rs. 5 to Rs. 10 lower, Dhurrumseys having receded to Rs. 890.

COTTON to-day has been quieter, with fewer buyers. Quotations are not actually lower, but exporters seem disposed to hold off for a time.

SEEDS are quiet but steady at previous prices. WHEAT is again in active request, and Soft White is now quoted at Rs. 35.

FREIGHTS are still very firm, with a large business doing. The s. s. James Watt has been taken up for Liverpool at 42s. 6d., without concessions. The s. s. Altmore is reported fixed at 38s. 9d. U. K. or Marseilles, 40s. Continent, and a large 2,200 ton steamer, also for November loading, at 38s. 9s., open charter, with heavy concessions.

PIECE-GOODS are quieter again, with less enquiry for future delivery. Prices, however, are unchanged.

COALS are steady at former values, and no new business has transpired.

The Bombay Gazette
FRIDAY, SEPTEMBER 16, 1881.

WHAT makes the great puzzle of the Eastern question so particularly perplexing is the number of lesser but equally insoluble puzzles included within it. Before the last Russo-Turkish war the Eastern question used to be regarded, like the French Republic, as "one and indivisible." At present the Eastern question, as a whole, is but rarely heard of. It has been replaced by the Bulgarian question, the Egyptian question, the Central Asian question (understood at last to form an integral part of the great Eastern question), and finally the Armenian question, which has long been agitated, is now being openly raised. The "Eastern question," as it was first understood was the question of the fate of Turkey, and according to M. Guizot, who discusses the origin of the expression in his memoirs, this name was given in 1839 by "everyone" to the quarrel between the Sultan Mahmoud and his rebellious subject the Pasha of Egypt, Mehemet Ali. But Egypt, as M. Guizot goes on to observe, is not the Ottoman Empire, and the Ottoman Empire is not the entire East. The great States in Western Europe have lost or acquired turn by turn, either through internal discords or by war, considerable territories without anyone speaking of the "Western question;" yet language which no one would think of employing in regard to the territorial crisis of Christian Europe is considered perfectly natural and legitimate in connection with the Ottoman Empire; for in Turkey there are no local or partial questions. Or, rather, every local question is sure to become a general one. Not the least shock, as M. Guizot puts it, can make itself felt in the corner of the edifice, not a stone can fall out, but the entire structure seems to be, and in fact is, on the point of crumbling to pieces. Different opinions may be entertained as to the amount of strength and probable life still remaining to the invalid; but no one believes that he will ever recover. His death, then, more or less near, more or less natural, is a fact which influences the whole situation, a presentiment which troubles all Europe. The question of Egypt was in 1839 the question of the Ottoman Empire itself; and this was equally the case when in 1854 the question of the Holy Places was brought to the surface, in 1876 when the question of Bosnia and Herzegovina came up, and in 1877 when the question of the Bulgarian massacres seemed to constitute the very core of the Eastern question. Then, there is the Greek question, which was the origin of the Russo-Turkish war of 1828, and which, in a new form, seemed on the point of bringing about hostilities only a year ago.

Of the Egyptian question, which will some day no doubt be for England the most important of all the questions comprised in the general Eastern one, less account is taken than might otherwise be the case, because Russia has no hand in it. In regard, however, to the newest question of all connected with the East, the aforesaid Armenian question, the same cannot be said. This is a question which concerns Russia intimately, and which Russia will certainly do her best to solve in accordance with her own interests. Once admit that Turkey is past recovery, and Russia need not be too severely blamed for keeping a sharp eye on what she regards as her share of the inheritance. But that is no reason why her designs should not be watched by England. England still fondly clings to the belief that the position of the subject races of Turkey may, at least, be rendered tolerable for them without a general upheaval. Russia maintains the exact contrary; and their discontent is the very lever by which she operates against the Turkish Government. Accordingly, to ameliorate seriously the condition of the Armenians would be to work against her own interests; and it must be confessed that, whatever her interests in the matter may be, it will not be easy to secure for them such rights as would reconcile them finally to the Ottoman rule. The Armenians do not, of course, belong to the Russian Church, but they are Eastern Christians; and while their creed and ritual differ but slightly from those of the Russians, they find in Russia a constant advocate, disinterested or not, and, like the Bulgarians, have her for a neighbour. The Armenians, in fact, may be divided into those who are subjects of Russia and those who are subjects of Turkey; and, without saying much in favour of the former Power, it may be safely averred that of the two sections the Russian one is the best governed and the most prosperous. In Russia the Armenians are Christians under a Christian rule. In Turkey they are Christians under a Mahometan rule; and what the Turkish Armenians chiefly complain of is, not that they are in the ordinary sense of the word misgoverned, but that they are taxed and despoiled in the most arbitrary manner, and that they are exposed to the attacks of Kurdish and other tribes, who plunder them habitually, and now and then supplement plunder with massacre.

It may be that the complaints of the Armenians are exaggerated; it cannot be that they are unfounded, or our own Government would not take cognizance of them as it has done. The Armenians made great efforts towards the close of the Russo-Turkish war—indeed, in a lesser degree, before the campaign had been actually begun—to bring their case to the notice of the British Government. But, unfortunately, those who chiefly interested themselves in their behalf were Russians, with the well-known "O. K.," author or authoress of *England and Russia*, among the number. Their grievances were doubtless real, but they were grievances which it would be difficult to remedy, and which, if not remedied, the Russians would be able to turn to good political account. The position of the Armenians has now been recommended to the attention of Lord Dufferin, and it is reported that Russia is "warmly supporting the demands of the British Ambassador for the introduction of reforms into Armenia." There are doubtless plenty of Russians who feel sympathy and pity for the Armenians in their difficult situation. In Bulgaria a population for the most part Christian was exposed to the vexations of Turkish officials and of Turkish irregular troops. The Christians, however, of Armenia and of Asia Minor generally are greatly in the minority; and one can easily believe that their position is even more difficult than was that of the Bulgarians before that much-tried race had exchanged Turkish pashas for Russian satraps. Not that the fate of the Bulgarians can be expected to have any effect in shaking the aspirations of the Armenians towards liberation from the tyranny of their present masters. They compare their situation with that of their relatives by race and religion on the other side of the frontier; and though the sway of Russia may have proved anything but a boon to her Polish subjects, who have always protested against it while endeavouring at every seemingly favourable opportunity to subvert it, the same cannot be said of her rule as extended to the Armenians of Georgia and Mingrelia. A system regarded by Poles, the inheritors of free traditions, as intolerable, may be highly acceptable to Armenians just freed from the Turkish yoke. In those Armenian districts which Russia has annexed she has, at least, been able to guarantee to the inhabitants such advantages as the free exercise of their religion and immunity from plunder and pillage. Russia has encouraged her Armenian subjects, moreover, to enter her public service; and one notable example of the heights to which an Armenian devoted to Russia may rise is found in Count Loris Melikoff, who during the late war commanded the army which crossed from Russian to Turkish Armenia the day after war was declared and who since the peace has distinguished himself, first by stamping out the plague in several Russian towns, and afterwards by an energetic though ineffectual endeavour to suppress Nihilism at St. Petersburg and throughout the Russian Empire. During the campaign in Armenia and Anatolia General Melikoff played the part at once of military commander and of political emissary; and an envoy better placed for setting forth the advantages reserved for Armenians in Russia could scarcely be conceived. Russia may, and probably will to a certain point, co-operate with Lord Dufferin in the efforts our new Ambassador at Constantinople is instructed to make for procuring the introduction of important reforms into Armenia. But the fact ought not to be lost sight of that Russia's ultimate aim in connection with the Armenians is to include them among her subjects. It is, however, impossible not to wish Lord Dufferin success in the task upon which he is entering.

THE situation in Egypt is unchanged. Cherif Pasha, the new Minister, has published a letter in the *Officiel Moniteur Egyptien*, in which he appears to have endeavoured to anticipate the prejudice which regards him as a sworn foe to the employment of foreigners in the Egyptian foreign service. "Egypt for the Egyptians" is the watch-word of Cherif Pasha's party; and his present manifesto must be taken, we conjecture, merely as a sign that the Pasha knows that the Governments are confirmed in the foreign Consuls—and more indirectly by the small band of Heads of Department who are doing so much to purify and strengthen the Egyptian administration—are the only forces between the Khedive his master and a blind obedience to the will of the soldiery. Cherif Pasha has no love for "European control" in Egypt; but he sees that it is necessary.

Political students who have no wish to see Turkey made more ridiculous will be glad to hear that that Power has renounced her intention of sending a commission to Egypt to investigate the causes of the recent crisis.

THE official journals of St. Petersburg and Berlin declare that the late meeting of the two Emperors on board the Russian Imperial yacht at Dantzig, and the visit paid by the Emperor of Germany to his brother of Austria at Gastein, testify to the *rapprochement* between the three monarchs, and are a pledge that peace will be preserved. The prophecy is like the prayer one half of which was granted, while the other half was allowed to melt into empty air. If by *rapprochement* is meant a feeling of a common danger and a common perplexity as to how to meet that danger, there can be no doubt that such feelings, or feelings not far remote, are drawing the three Emperors together. They are united in an endeavour, which must fail, to prevent the development of free institut and parliamentary government in or their dominions. They have conspired to save Austria from the inconvenience of having a state—Bulgaria—so near her lers in the enjoyment of the liberties which was the expressed desire of the signatories the Treaty of Berlin Bulgaria should en. But it is becoming clear that there may any day arise occasion for applying wit the three Empires the machinery which, in the instance referred to, crushed free just outside their limits. There need no hesitation in accepting the statement made by the *Journal de St. Petersburg* a the semi-official *Poincial Correspondence* Berlin that the late meetings have reference in attempt on the part of the great military arches to form themselves into a kind of Mal Insurance Society.

But whether an effort can be properly described as a "ge of peace" depends, unfortunately, conditions which even the sovereigns and men who govern this world are not always to bend to their will.

LORD HARTINGTON, in his speech on the Indian Budget, ailed in his attempt to satisfactorily exin the reduction of the estimate of rece from opium to a sum two millions below the tuals of the previous year. He says: "It has recently been inculcated on the Government India by various Secretaries of State that a dent estimate of this sort of revenue is to be ken; and the most recent despatch sent them on the subject expresses a doubt as to the wisdom of very high estimates and enjoins more prudent course for the future." This by the truth, but certainly not the whole truth, for no such advice as this would lead the Government of India to at the estimate twenty-five per cent. ow what the Finance Minister had reason believe that he would receive from that source. Prudence is one thing, but a deli

POONA RACES.

SECOND DAY, SEPTEMBER 15, 1881.

(FROM OUR OWN CORRESPONDENT.)

The second day of the Poona races was favoured by beautiful weather, and there was consequently a large attendance, the Governor being amongst those present. The course was not so heavy as on the opening day. Owing to the Civilians' Ball last night, the lotteries were not so well patronized as on Monday, and the racing was hardly as interesting.

PONY RACE.—Rs. 400. For all Ponies; weight for inches: Australians 13-2, to carry 10 stone; Arabs and Countrybreds (13-2) 9 stone. Maidens allowed 7 lbs. Ponies who have won a race worth Rs. 400 or Galloways, 5 lbs. extra. Distance 1 mile. Entrance 1st May 1 G. M., 1st June 3 G. M., 1st July 4 G. M., 1st August 5 G. M., 1st September 10 G. M. when the race will close with a Sweepstakes of 2 G. M. for each pony declared to start.

The first race on the card was the Pony Race, for which only Sattara and Chungiz came to the post. The latter led at first; but on entering the straight, Sattara assumed the lead, and won easily by half a length. Time 57m.

THE CRITERION.—Rs. 500. For all Arabs, the property of Officers of the Bombay Army at the time of Weight for age, raised 28 lbs. Winners once ... twice 7 lbs., oftener 10 lbs. extra. The Criterion brought out the largest field of the day, nine horses coming to the post, of which Heliograph, Buttercup, and Republican were the most fancied. When the flag fell Republican took up the running, the others being well up, with the exception of Hero, who lost a lot of ground at the start. Priam took the lead as they ascended the hill, but only held it for a short time, as coming into the straight, Buttercup, Republican, and Grey Warrior came to the front; and a splendid race between the three resulted in favour of Buttercup, who had always the best of it, Republican being second and Grey Warrior third. Time 2m. 31⅘sec.

Seven starters appeared for Aga Khan's purse; Dictator, the Derby winner, being a warm favourite. After one attempt the flag fell to a capital start, Irishman at first taking the lead, but was soon passed by Chevalier, who kept the lead till they entered the straight, Dictator being in advance of the rest. Here a most unfortunate accident occurred. Chevalier ran into a native mounted sowar, who had stupidly got into the course in attempting to drive out a dog, and Chevalier was so seriously injured that he died shortly afterwards; but Clarke, the jockey, fortunately escaped with a severe shock, while the sowar and his horse were unhurt. The accident was a most unlucky one, as Mr. Stephens had only refused Rs. 5,000 last night for Chevalier, and had received an offer of a further thousand, if Chevalier won to-day; which he would have done had he not been collided with. This accident cleared the way for Dictator, who had the race in hand, and won easily by three lengths, Express being second, Earl third. Time 2 m. 46 sec.

H. H. AGA KHAN'S COMMEMORATION PLATE.—For all Arabs, Rs. 5·0 from the Fund. Weight for age, raised 10lbs. Maidens allowed 10lbs.; Maidens of the day 14lbs. Galloways allowed 7lbs. Major Crosbie's g a c Star, 7st. 11lb., Native .. 0

Five horses started for the Commemoration Plate; Exchange and Volunteer being warm favourites. When the flag fell Shaida took up the running, Exchange lying last by a long way. In this order they continued till ascending the hill, when Volunteer took up the running and Exchange began to close up on the leaders. Entering the straight, Reformer challenged Volunteer for the lead; and a good race between the pair resulted in favour of Reformer by three lengths, Shaida being a bad third. Time 3m. 30sec.

THE DECCAN STAKES.—Rs. 700, for all Maidens, English, Colonial, and Countrybred Horses, Weight for age and class. Horses landed after 1st January, 1881, allowed 1lbs. Previous winners once 4 lbs. twice 6 lbs., oftener 8 lbs. extra. Entrance 1st May 3 G. M., 1st June 5 G. M., 1st July 10 G. M. 1st August 15 G. M., 1st September 20 G. Nawab of Jowrah's ch w g Austin Elliot, 7st. 9lbs., Burton 0

A capital start was effected in the first attempt for the Deccan Stakes. Austin Elliot, taking advantage of his light weight, made the running and maintained the lead till ascending the hill, when Linkboy drew up and Austin Elliot fell back beaten. Prospero now came up with a rush, but could never catch Linkboy, who won by three lengths from Prospero; the other two pulling up when pusuit was useless. Time 2m. 50sec.

THE following telegram from the Political Resident at Aden, dated the 14th instant, is published in the *Bombay Government Gazette*:—"Following telegram from Chief Secretary, Malta: 'Seven days, quarantine here on arrivals from Aden; please telegraph weekly number of cholera cases.'"

THE cholera epidemic, which has caused thousands of deaths in the Bombay Presidency during the last two months, appears to be gradually decreasing. The returns for the past week show 37 deaths in the Surat district, 15 Ahmedabad, 13 Kaira, 10 Thana, 3 Ratnagiri, 19 Belgaum (Athni taluka), 2 Bareda, 2 Ankleswar, and 1 Poona. In Ahmednagar district there were 255 deaths. From Sholapur all the information given is "cholera still throughout districts, but decreasing;" from Khandesh, "cholera decreasing;" and from Satara, "cholera in five talukas." In Bombay city there were 12 deaths as compared to 14 in the preceding week.

THE next departmental examination of junior civil servants, cantonment magistrates, and others will be held in Poona, at the College of Science, on the 8th October. Those who may wish to be examined according to the Lower or Higher Standard, or in the Extra Judicial Paper, should send the necessary intimation to the Secretary to the Central Committee for Departmental Examination before the 25th instant.

IT is stated that the Viceroy has given his consent to the new Calcutta Municipal Bill.

LIEUTENANT [illegible], R.N., of the Marine Survey, has been offered by the Port Commissioners the post of River Surveyor to the port of Calcutta. Mr. Petley has accepted the Port Commissioners' offer, subject to his receiving the sanction of the Admiralty to take up the post.

A SOCIETY has been formed in Calcutta for the purpose of bringing about an amalgamation of the Rarhi and Barendra sects of Brahmins—the two great divisions of Brahmins residing in Bengal, by promoting marriages between them.

THE value of the new gold coins to be issued to the Maharaja of Travancore is to be five rupees, and the order to coin them has already been sent to England.

DURING the year 1880 works of public utility to the value of Rs. 2,72,645 were constructed by private individuals in Bengal. These may be subdivided as follows: inns or serais 3, value Rs. 4,800; roads 10, value Rs. 10,700; bridges 18, value Rs. 39,625; embankments of bunds 3, value Rs. 1,246; tanks 148, value Rs. 1,65,848; wells 51, value Rs. 18,409; masonry ghats 4, value Rs. 3,480; and petty works costing less than Rs. 200 each. Last year the amount expended on similar works was Rs. 2,47,674.

AT Umballa, cholera, which showed signs of abating on the 8th instant, has somewhat revived. There were twenty-five fresh cases and nine deaths on the 10th instant. At Jullunder the disease is dying out. Numbers of the inhabitants of Jullunder city left the place panic-stricken, but are now returning to their homes.

A CALCUTTA paper states that the authorities have made a suggestion to the Nizam's Government to appoint a few European subordinate officers to the Hyderabad police. The reason for this suggestion is that the existing police force is not able to cope with the doings of the daring Africans and Rohillas in Hyderabad and the adjacent places. European police officers, it is suggested, should be located at Secunderabad, Bolarum, and other places, and the Hyderabad Government should keep a powerful police force in the city to prevent the depredations of the lawless gangs who have taken refuge there. The special attention of the British Resident has been drawn to the subject.

HONORARY CAPTAIN J. ROBERTSON, Assistant Accountant-General, Military Department, is about to be gazetted to a majority. The open canteen system, by means of which a great saving has been effected, we believe was suggested by this officer.

A QUETTA correspondent states that "a soldier was attacked by a Ghazi on the 27th August while walking through the bazaar, but was saved by his helmet. The would-be murderer was captured, and is now awaiting sentence. The Ghazi, who is a Brahui, refuses to give his name or the tribe to which he belongs, and merely says he is sorry he did not kill someone."

THE *Pioneer* instructs the military authorities as follows regarding the management of the Frontier Force:—"If the Punjab Frontier Force is abolished hereafter as a separate command, the regiments comprising it may naturally expect to take their share of service in what are called "good stations" in Northern India; and that certain advantages may follow this change seems highly probable. There is a strong Pathan element in many of the regiments, and it is beyond doubt that the nearness of the frontier tempts many of the sepoys to desert, taking with them their rifles, accoutrements, and such ammunition as they may have at the time. The serious loss occasioned to the Government is increased by the consideration that the restless tribes beyond the border thus become possessed of excellent arms of precision. A correspondent draws attention to the fact that every trans-border Pathan enlisted in the Punjab Frontier Force is "cut" Rs. 2 monthly, as security for rifles that may be stolen. This loss of pay bears very heavily upon the sepoys, and it is sensibly suggested that the regiments in which the Pathan element is very strong should be moved east of the Indus, and their places be filled by Sikhs or other Indian troops."

THE report on the vaccine operations in the Central Provinces during the year 1880-81, shows that 317,838 primary operations were performed, of which 94 per cent., or 301,140, were successful. Of secondary vaccinations, 70 per cent. were successful. Great attention was paid to the supply of lymph, and stress was laid upon the remark of the Government of India—"that the thoroughly good quality of the vaccine used is even more essential than a large number of operations." In eight of the districts of the Central Provinces, viz., Damoh, Jubbulpore, Hoshungabad, Mandla, Bhundara, Nagpore, Wardha, and Chanda, there was a large increase in vaccinations. On the other hand there were very large decreases in Baitool, Seoni, and Belaspore. The Chief Commissioner believes that every vaccinator should with ease accomplish 2,000 operations in a year. In the Mandla district, with an average population of 45 to the square mile, the vaccinators got through 2,407 operations in the course of the year; but one vaccinator managed to perform over 5,000 operations. The average number of persons vaccinated by each operator during the year was 1,511. This is lower than the two previous years, when the figures were 1,644 and 1,718 respectively. The average for the year 1880-81 was interfered with to some extent by the census operations.

THE *Englishman* says that the Bengal pilots have for some years past lead a vexed life; their numbers have been reduced as well as their emoluments, whilst their expenses have been increased by the late order compelling them to wear uniform. But their woes are not yet ended, for the Port Officer having suggested to Government that the present number, 63, was in excess of the immediate and probable future requirements of the port, the tendency of the shipping being at present towards an increase in the tonnage, and a reduction in the number of vessels, and that there was thus at times insufficient employment for the actual number of running pilots, a Committee was appointed to report on this subject and on that of the distribution of tonnage among the several grades of pilots. The recommendations of the Committee, which are in the direction of a gradual but moderate reduction in the number of pilots, and a consequent rise in the maximum tonnage allowed to the lower grades, have commended themselves to the Lieutenant-Governor, and are at present under the consideration of the Government of India. It may be satisfactory to the pilots to know that the Lieutenant-Governor considers that "any change that may be made must necessarily be of a tentative and guarded nature. A Hooghly pilot is not trained to his work in a day, and there must be a sufficient reserve to meet sudden emergencies and unexpected increases of traffic, as at the time of the Madras famine."

THE Allahabad paper records the death, at Chandernagore, on the 4th instant, of a lady, aged 50 years, who had witnessed a good deal of hard campaigning. Elizabeth Jane Ann, the wife of Surgeon-Major R. F. Thompson, retired, H. M.'s Indian Army, was a prisoner with the Sikh Army in company with Lady Lawrence. During the Indian Munity she was cooped up in the beleaguered garrison of Lucknow, where she voluntarily ministered to the comforts of the wounded, and was much esteemed for her many amiable qualities. On one occasion a shell, thrown from the guns of the enemy, exploded in a room containing herself and her children, tearing away a portion of the masonry, but fortunately inflicting no human injury.

A LETTER is published by the *Rangoon Gazette*, which, if it really comes from one of Theebaw's officials, perhaps merits some attention. The writer—in behalf, he says, of the King—stirs up an old scandal. Referring to the treaty made between the late King and General Fytche, he declares that Lord Northbrook refused to observe an important part of the agreement; the inference being that the Indian Government cannot blame the Burmese for not observing the other portions which relate to trade.

HIGH COURT.—SEPT. 15.

(Before the Hon'ble Mr. Justice WEST.)

A CLAIM MADE BY MR. KESSOWJEE NAIK.

KESSOWJEE NAIK VS. SAKARCHAND NAGARDAS.

THE Advocate-General, Mr. Lang, and Mr. Telang, instructed by Messrs. Hearn, Cleveland, and Little, appeared for the plaintiff; and Mr. Starling and Mr. Jardine, instructed by Messrs. Jefferson, Bhaishankar, and Dinshaw, for the defendant. The plaintiff's claim was that he might be declared entitled to recover from defendant Rs. 34,000, the balance of Rs. 2,00,000 entrusted by him to the defendant for the purchase of shares of the New Fleming Spinning and Weaving Company, and to recover the value of 505 shares, which had been detained by the defendant, at the rate of Rs. 366 per share.

Mr. Telang said that the defendant ought to begin, he having admitted that he had received the two lakhs of rupees, and the claim as to damages for the detention of the shares having been abandoned.

Mr. Starling submitted that the plaintiff still ought to go on, there being several issues which the plaintiff had to prove.

The judge decided that Mr. Telang had better begin; and that he would be allowed to call rebutting evidence, if he thought it advisable to do so, at a subsequent stage of the proceedings.

Kessowjee Naik, examined by Mr. Telang, said.—I am the plaintiff in this case. I remember that towards the end of the year 1878 Nursey Kessowjee used to purchase a large number of shares of the New Fleming Spinning and Weaving Co. at an average of Rs. 425 per share. The *vaida* day was the 1st December, 1878. I had agreed with Nursey Kessowjee and Co. to purchase shares up to the number of 500 at Rs. 400 per share. In pursuance of an agreement, I paid to the defendant Rs. 2,00,000, all my own money, requesting him to take delivery of the shares which Nursey Kessowjee had agreed to sell to me, and pay for them at Rs. 400 per share. The money had been borrowed from the Bank of Bombay on account of the Mazagon Company; and the defendant was security to the bank for its repayment. I told defendant that the excess price for the shares would be paid by Nursey Kessowjee and Co. In pursuance of that arrangement, I know that the defendant purchased a number of shares at the office of Nursey Kessowjee and Co., where I used to sit. I saw defendant taking delivery of the shares. He used to sit at the office and to sell cloth made at the mills managed by Nursey Kessowjee and Co. He was a director of three of the mills. The *vaida* day was over, but I allowed defendant to take delivery up to the 6th December, 1878. On that day I asked defendant to stop taking delivery and to tell me how many shares he had taken delivery of. He said he had taken 400 shares, but that he would tell me the exact number that evening at Nursey Kessowjee's bungalow. That evening defendant told me that he had purchased in all from 405 to 410 shares, and that the people of Nursey Kessowjee's firm would furnish me a memorandum of the shares. (Produces a memorandum.) It was produced in the Insolvent Debtors' Court. I made a demand upon defendant for the money due to me in respect of this transaction four or five times after the 6th December, 1878, and once or twice subsequently. In February, 1880, my solicitors made a written demand. The defendant said the money was credited to me, and that he would pay it when the money in respect of which he stood security to the Bank of Bombay for the Mazagon Company was paid off in 1880.

Cross-examined by Mr. Starling.—I told the judge of the Insolvent Debtors' Court that I had agreed to buy 500 shares of the New Fleming Company in December, 1878. I do not recollect saying that Nursey Kessowjee and Co. bought the shares on my account through different brokers. They were bought by them on their own account. At the time I was insolvent I did not state in the Debtors' Court I was very much confused; and I cannot swear that I did not say so. I am not confused at present. I will not swear; but my impression is that I did not say so. I must have thought the New Fleming shares to be better than the shares in other mills, and therefore I purchased them. I do not recollect having said in the Insolvent Debtors' Court that there might be a memo. of the transaction in Nursey Kessowjee's books. I will not swear that I did not so say. I said in that court that it was my destiny, and that God intended that I should lose the Rs. 2,00,000 entrusted to the defendant. I considered the amount as lost until I got it back. This suit shows that it is well nigh lost. I used to sit in Nursey Kessowjee's office, and he used to consult me about shares and other business. It depended upon his pleasure whether he followed my advice or not. Sometimes I used to transact business for him. In November or December, 1878, Nursey Kessowjee and Co. were not in difficulties. They used to do a large business. I do not know how many lakhs had been borrowed; but Nursey Kessowjee and Co. were shroffs to the four mill companies. I do not know that their accounts were to the bad to the extent of Rs. 20,00,000 or Rs. 25,00,000. I was a director of the four mills; but we directors did not look into the accounts. We managed the general business of the mills. We used to see and sign the balance-sheets that were brought to us, on the faith of the auditors having examined the accounts. We did not examine the accounts ourselves. When however my son asked me to stood security for him. As far as I know, the credit of Nursey Kessowjee and Co. in November and December, 1878, was good. I did not go to Dr. Sidney Smith in November, 1878, for any loan or for discounting any bill. I did not go to him about this loan of Rs. 2,00,000, and did not beg of him to discount the bill. I had many a two lakhs due to me at the time. I did not beg of defendant to stand security for the advance of Rs. 2,00,000, simply asked, and he did so as a friend. It is a rule of the Bank of Bombay not to advance a large sum to one party without security; and they therefore asked for security in this instance, because a large sum had already been advanced to the Mazagon Company. I never borrowed from the Bank of

THE STANDARD LIFE ASSURANCE COMPANY.
ESTABLISHED 1825.

THE attention of intending Assurers is directed to the following points of this old established office :—

FUNDS.—These now considerably exceed FIVE AND-A-HALF MILLION STERLING, and are larger than those of any British Office transacting business in India. Detailed statements show the nature of the Investment are published annually.

ANNUAL REVENUE.—This has now reached EIGHT HUNDRED THOUSAND POUNDS.

CLAIMS.—The amount paid annually to the representatives of deceased Policy-holders is towards HALF-A-MILLION STERLING.

NEW BUSINESS.—Since 1865 the yearly New Assurances of the Company have exceeded ONE MILLION STERLING,—a result maintained by no other British Office for so many years in succession.

RATES.—These have lately been considerably reduced at most ages and will be found moderate. Lower rates are not justified by the Company's experience, now of considerable extent—nor by the most recent investigation into the mortality of European lives in India.

FACILITIES FOR ASSURANCE.—The Local Boards are empowered to issue Policies and pay claims (without reference to Head office), and arrangements can be made for Medical Examinations in any part of India.

Forms of proposals, &c., and every information may be obtained on application.
